DYLAN'S CANDY BAR®

MAKE CANDY WRAPPER JEWELRY

Watch Video Instructions alextoys.com

For video instructions-
www.alextoys.com
Search:
"Candy Wrapper Jewelry"

FOLDING A LINK:

Lay wrapper face down.

① 
Fold in half lengthwise

② 
Rub across folds to crease

③

Open the wrapper

④ 
Fold edges into center

⑤ 
Crease

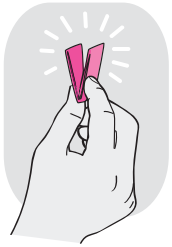
⑥ 
Fold together

⑦ 
Crease again

⑨

Fold in half

⑩ 
Fold ends into center
to make a "V"



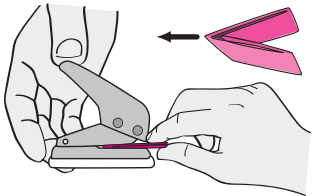
You made your first link!

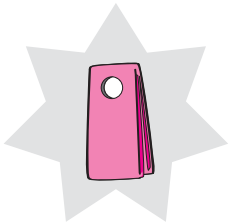
HINT:

It is easier to make several links before putting the jewelry together.

FIRST LINK ONLY!

Punch your first link like this.
SLIDE LINK ALL THE WAY TO THE BACK AND CENTER.

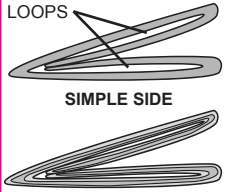




MAKE A BRACELET!

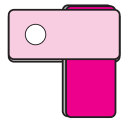
NOTE:

V shaped link



Each link has a simple side and a side with many folds. It is much easier to slide the links into the loops of the simple side.

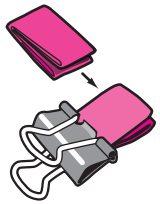
① 
Slide each side of "V" into the loops of first "V"



1st link will look like this

HINT:

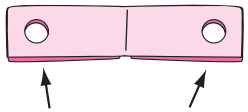
If you're having trouble, place a clip on the 1st link to secure and slide the 2nd link in!



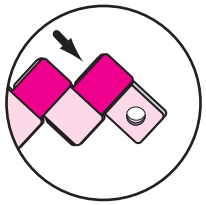
② 
Slide 3rd link into the "V" of the 2nd loop

③ 
Keep going until the chain is long enough. 16 or 17 is a good length.

④ **FINAL LINK:**
Use hole punch

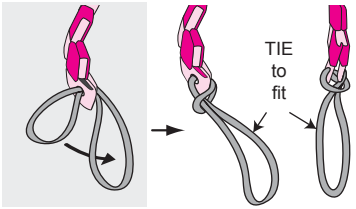


Make a hole on each end

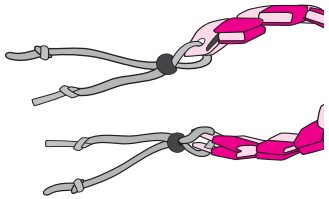


Slide in final link

⑤ 
Finish your bracelet off with suede cord and a bead!



For a headband, thread 1 loop through the hole on each end and tie!



For a belt, use 1 suede cord and bead on each end! Just tie together to fasten!
