# Spiffy SPA

Are you ready to treat your feet? With the Spiffy Spa you will have the chance to pamper and polish your toes!

## HOME SPA TIPS & TRICKS:

Before you begin, make sure your feet are clean. You don't want to decorate stinky toes!

## SOFTEN UP!

1. Soak feet in warm soapy water for 5-10 minutes.
2. Mix in a small bowl of raw sugar or chunky salt. Use this to scrub your feet nice and smooth!
3. Pat your feet dry with a towel. Place the toe separator in between your toes. This will make it easier to paint them.

## HEY TWINKLE TOES!

Now you're ready to paint your toes!

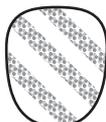

1. Use the nail file to file your toe nails. File the tips flat so they are straight and even.
2. Use any of the nail polish colors that are included in the kit to create a variety of fun designs! Play around with stripes and polka dots! Here are some designs to try:

**STRIPES!**

**DOTS!**

**GLITTER!**

**FLOWERS!**

**TIP:** It's a good idea to keep cotton swabs or balls handy when you paint your toes so you can touch up as you go.

3. When you're done painting your toes, wait for the polish to dry. Once they are dry, use the sparkly stickers to decorate your toes! Remove the toe separators and you're ready to go!

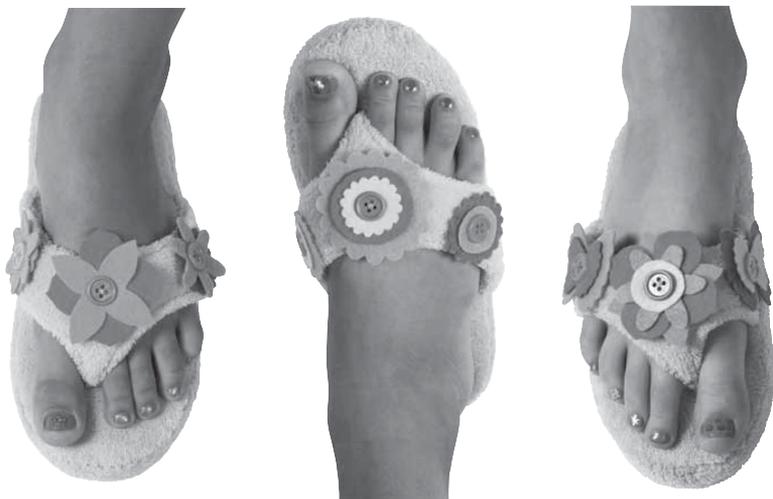

## STEP UP!

You can decorate your fuzzy slippers while your toes are drying!

1. Choose a pre-cut felt shape.
2. Notice there is a slot in the middle of the felt. Slip the felt through a button on the slipper.

3. Continue adding and layering different shapes and colors on all the buttons. Mix and match to switch up your design! Let's see how many styles can you come up with!

## HAVE A PEDICURE PARTY!

Invite your friends over for toe pampering fun! Share your design styles and tips! See how many different ways you can paint your toes!
