Splash n. Sparkle

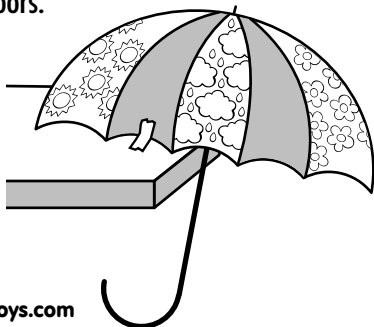

Umbrella Painting Kit

Turn a boring rainy day into a fun day! Paint a splash of glittering color onto a perfect kid-sized umbrella.

Find a comfortable protected work area preferably a large table. Open the umbrella and rest it on the ledge of your working surface letting the umbrella hang (see *illust. 1*). It may be helpful to lightly tape the umbrella to the tabletop to hold it in place. Next, dip your paintbrush into your desired paint color and fill the outlined illustrations. We suggest you start in the middle and work outwards and work section by section. Make sure to clean your brush between each color and then dry it with a paper towel or tissue paper. If you prefer, apply a second coat of paint to create an opaque look. Once you've finished painting your opened umbrella, set aside and allow it to dry thoroughly (24-48 hrs.) before closing it or using it outdoors.

WARNING: PAINT CONTAINS COLORANTS WHICH MAY STAIN FABRIC AND OTHER POROUS SURFACES. BE SURE TO PROTECT YOUR CLOTHING AND WORK SURFACES.
