

# Scrap'n Stuff

## GET READY!

### Collect:

Get a shoebox or big envelope and start gathering the things you might want to use in your collage. Save photos, clippings, doodles, notes from friends, ticket stubs, cool papers, stickers and any other stuff that you want to keep. Also collect things you can use as decoration for your pockets in addition to what's included in this kit. You can use things like ribbons, dried flowers, feathers, small beads and rubber stamps to name a few.

### Photo note:

While you're going through your photos, pick out the good ones and set aside photos that are dark, blurry or less exciting. Since you'll be cutting your pictures, make sure that you have doubles, or get color copies, so that you have the originals in case you want to make a change later on.

## GET SET!

### Decorate:

Add frames and photo corners to draw attention to your pictures. You can use the stencil to trace and cut your pictures into shapes. Then decorate with felt cut-outs and alphabet stickers included. Cut up the patterned paper and stiff felt with the craft scissors to make fun borders and shapes. Use the buttons and ribbons to accent the sheet. Remember, layering is key! Don't forget to use the clippings, drawings, ticket stubs, notes, and scraps you've been collecting! If you're stumped for ideas, you can use the package as a guide.

## GO!

### Share:

Stuff your collaged sheets into the clear plastic pockets. You can mix, match, and swap the contents of the pockets. Show off your Scrap 'N Stuff collages to family and friends!
